Decentralized Crypto-Community Accelerator in support of preICO Blockchain Projects.

It is based on the principles of coincidence of investment preferences of the Accelerator's Financial Partners whose interests are represented by the Managing Partner before the teams of Blockchain projects.

Accelerator PROPOSES 7 BTC Team Blockchain Project for 7% stake in the project.

In addition, we will perform scoring of the concept, help identify weaknesses and attract funding for subsequent rounds of ICO.

The team is presenting the project in our office. Video broadcast of the project presentations and the team is always available to the Financial Partners of the Accelerator.

Partners evaluate the project and decide on funding. Each vote of the Financial Partner in favor of the project brings the team 1 BTC. If the project is supported by 7 partners, the team receives 7 BTCs to conduct preICO.

Everything is extremely simple, consistent and debureaucratic.

- 1/ Read your White Paper document.
- 2/ We invite the Team to the Presentation.
- 3/ We make a decision.

Accelerator is INTERESTED in partnership with every Bitcoin investor, disposed to search for XXXXX in new promising Blockchain projects.

We are always open to suggestions!

7 btc // me

7 b t c . m e // We are looking for the following projects:

- 1 / addressing a global problem or introducing breakthrough technology
- 2 / absolute Blockchain adaptation
- 3 / understandable to each smart contract algorithm accompanying the financial flows of the project
- 4 / system demand by any physical and legal person
- 5 / logical tokenomics, interesting to individual and institutional investors
- 6 / easy decentralized scalability in every country in the world
- 7 / binding to ERC 20 token or progressive fork
- 8 / isolation from the need for anonymity
- 9 / KYC / SEC transparency for advancement in regulated markets
- 10 / social significance for the organization of a non-profit foundation
- 11 / a compact team of specialists to implement the business model and software
- 12 / broad opportunities for motivated partnerships
- 13 / the applicability of viral marketing tools
- 14 / low-tax corporate implementation

In fact, everything is rather flexible. If your idea does not fit all the points, it's not a problem.

Perhaps your project is better than our wishes!

We are always open to suggestions!
